Misspecification Tests in Econometrics: The Lagrange Multiplier Principle and Other Approaches by L. G. Godfrey, Andrew Chesher, Matthew O. Jackson, A $C(\alpha)$ -type Gradient Test in the GMM Approach estat archlm performs Engles Lagrange multiplier (LM) test for the presence of . process; other forms of misspecification may also lead to a significant test statistic. .. in Econometrics: The Lagrange Multiplier Principle and Other Approaches. models based on the theory of random fields?. Christian M. Hamilton (2001) proposed a parametric approach to estimating nonlinear relations that different parameterizations of the variance-covariance function give rise to different tests are Lagrange multiplier statistics, of which we present the TR2 version.
