Excitation of atoms and broadening of spectral lines. Author/Creator: Sobel?man, I. I. (Igor? I?ich), 1927-2005; Language: English. Imprint: Berlin ; New York Amazon.co.jp? Excitation of Atoms and Broadening of Spectral Lines Atoms and spectral lines. Atoms: small dense nucleus consisting of protons and neutrons, usually with: p ? n. Light electrons orbit Excitation and Ionization. At low temperatures pressure broadening due to surface gravity. E.g., compare a [edit]. Main article: Atomic spectroscopy. For atoms in the gas phase the principal effects are Doppler and pressure broadening. Excitation of Atoms and Broadening of Spectral Lines Springer .
